ENGAGEMENT OF JESSIE WILSON ANNOUNCED

Youngest Daughter of Presi-
dent Will Marry a Beth-
lehem Man.

Washington, July 2.—The President and Mrs. Wilson announced tonight the engagement of their second daughter, Miss Jessie Woodrow Wilson, to Francis Bowes Sayre of Lancaster, Pa. The wedding is expected to take place next November at the White House. Mr. Sayre is at present an attorney in the office of District Attorney Whitman of New York. Announcement was withheld until today as it is the first anniversary of Mr. Wilson's nomination at the Baltimore convention.

Mr. Sayre is 28 years old. He was graduated from Williams college in 1909, and was manager of the football team there, valedictorian of his class and interested in Y. M. C. A. work. He spent two summers with Dr. Will-
fired T. Grenfell in his missionary work on the coast of Labrador, and studied law at Harvard Law School, where he was graduated last year, "cum laude."

Miss Wilson is 24 years old and was educated from Goucher College, Baltimore, and specialized in political science. She has done much settlement work in Philadelphia.

NEW CUSTODIAN. Postmaster Conner Now Has Charge of Government Building.

Postmaster Joseph P. Conner was notified by the Treasury Department on Wednesday that he had been appointed custodian of the government building in place of Sherman T. Newton resigned. The appointment was made by telegraph with a letter and instructions following:

Home made pastry that reminds you of mother, is served at the Kearsarge Cafe.

FIGHTING AT GETTYSBURG

Seven Men Were Stabbed When a
Word was Spoken Against For-
mer President Lincoln

Gettysburg, July 2.—Seven men were stabbed tonight in the dining room of the Gettysburg Hotel, as the result of a fight which started when seven men aroused the anger of an old veteran in blue by abusing Lincoln. Several of the wounded men are in a serious condition at the Pennsylvania State Hospital. The state constabulary are making desperate efforts to find the men who did the stabbing.

The wounded men were: Edward J. Carroll, sergeant of the quarter-masters' corps, U. S. A., David Furber of Butler, Pa., a member of the state constabulary; John D. Maugh, Harrisburg; Malcolm Griffin, Bedford City, Pa.; Charles Smiler, West Fairview, Pa.; Hayder Reinsbecker, Gettysburg; and Harry A. Roel, Jr., of Harrisburg.

Furber, Maugh, and Griffin are in the most serious condition. Their wounds were in the left breast and the surgeons at the Pennsylvania State hospital would not venture predictions as to their chance of recovery.

According to all the information the authorities could gather, the fight started suddenly and was over in a few minutes. It began shortly before 7 o'clock when the dining room was full of people and caused a panic among the scores of guests.

The old veteran who was unhurt and disappeared in the melee, was sitting near Furber and Carroll when he heard the slighting remarks about Lincoln. He jumped to his feet and began to defend the martyred president and derided his detractors. The men who were stabbed according to the information the surgeons gathered, jumped to the defense of the veterans when the others closed in. Knives were out in a second and the room was in an uproar. Women fled for the doors and crowded to the windows ready to jump to the street below. It was all over before the rest of the men in the room could get their breath, and the men responsible for it had all got away.

The fight spurred the medical men again tonight to an effort to have the Gettysburg saloons closed during the remainder of the celebration. The constabulary later arrested a man who gave the name of W. B. Henry, and said his home was in Philadelphia, as one of the men concerned in the fray. They believe that more than one man was responsible.

WILL CAUSE CHANGES. Three Important Places to Be Filled by Bishop Guertin.

The existing vacancies in the Catholic parishes of the Manchester diocese will likely cause many changes among the clergy when the appoint-

ments are made by Bishop Guertin. At present three important parishes, Concord, Keens, and Claremont are awaiting action owing to the death of the parish priest at these places.

Now is the time to have your house cleaned by the vacuum process. Drop a card to F. A. Robbins, Elliot, Me. Tel. 309-35.

CLARK IS RELEASED FROM JAIL

Brother Comes Across With
the Collateral for Taxes
and Board.

Tax Collector W. H. Page, Willie Clark and Sheriff Spinnery are now all good friends and Willie is again enjoying his liberty. The case of Clark caused no small amount of attention and has been brought to a close. The county has collected for his board, but the tax collector did not come across with the board money. Originally Willie owed the city just \$1.50. He failed to produce that amount and the collector sent him to the jail. Today, when Willie was released, the bill had increased to \$37.00. This included taxes, commitment costs, board, etc. The county got the big end of the transaction in the payment for Willie's care and entertainment.

Willie has been boarding with the county for nearly three months at the rate of \$2.50 per week. He enjoyed the good menu and his play with Sheriff Spinnery until the heat of Tuesday arrived, then he longed for the open air. He had a good brother in Portland who came along and placed the \$37.00 in the hands of the collector and Willie went out to spend the glorious fourth with his friends.

THREW A ROCK. George Sumner of South Hampton Arrested for Ag- gravated Assault.

County Solicitor Ernest L. Cupitt on Wednesday caused the arrest of George Sumner of South Hampton on the charge of aggravated assault. It is alleged that Sumner threw a rock at Burton C. Roberts, an aged resident of the town, striking him in the head. Sumner will be given a hearing in the police court at Hampton today.

Sumner was taken to Hampton this morning where it was found that the new justice was not yet qualified to act. He was then taken to Exeter where County Solicitor Cupitt filed information with Judge Young of the superior court, who ordered Sumner held in \$200 for the October term of the superior court. In default he was committed to jail in this city.

STOLE HIS TICKET. Veteran Assisted By Police to Get to His Home.

Hugh A. Warren, a veteran of the Spanish American war, appealed at the police headquarters yesterday asking for assistance to enable him to get to his home in Gloucester, Mass. Warren, who served with a Massachusetts regiment was on his way from the Tugus Home in Maine and while asleep in the train between Portland and this city his ticket was stolen. Chief Hurley furnished transportation for the remainder of the trip.

KNOWLES—DEVINE. Popular Motorman Takes a Bride on Wednesday.

The marriage of George H. Knowles of this city and Miss Mamie Devine of North Hampton took place on Wednesday morning at the rectory of the Church of the Immaculate Conception, the ceremony being performed by Fr. Walsh. They were attended by Miss Jennie Burns and Frank Clark. A wedding breakfast was served at the home of Mrs. Linnie I. Fernald on Fleet street, where they will reside. The groom is employed on the Portsmouth street railroad as a motorman and has many friends who will wish him a long and happy married life.

WOODS ON FIRE. Auto Chemical Crew Sum- moned to Fight Fire Near Pumping Station.

At 2:30 o'clock this Thursday afternoon the auto chemical crew were summoned to the Plains to fight a fire that was raging in the woods in the rear of the pumping station. A telephone message stated that the fire had gained good headway and clouds of smoke could be seen rolling high up in the air.

Are you going to the playgrounds to see that early morning game of baseball between the freight clerks and the truckmen?

BATTLESHIP IN GREAT DANGER

Valve Bonnet Blew Off the U. S. S.
Louisiana and Only Heroic Work
of Crew Avert a Disaster

Newport, R. I., July 2.—The bravery of the engineers and crew of the battleship Louisiana helped the vessel out of a dangerous predicament today, when a valve bonnet blew off, flooding the starboard engine room with water. Incidentally the accident gave Captain Tammplin M. Potts, who was yesterday dismissed by the naval plucking board, and who retires tomorrow a memorable experience at the close of his long years of service.

The battleship was in Narragansett Bay overhauling her engines. The rush of the sea through the passage opened by the displacement of the bonnet could not be readily stopped, although chief engineer Frank W.

Sterlin and officers and men of the engine room force rushed to the scene. Swirling waters carried men off their feet, forced them against the machinery and threatened to drown them; but they stuck to their work. At times the sea in the engine room rose to a height of six feet, but still officers and men worked on, now swimming a few strokes, now grasping a bar or wheel overhead. Pumps had been started but the water continued to pour in in greater volume than could be disposed of.

Some of the engine room force off-

NEW YORK GEM THIEF CONFESSES

William Beck, 19 Years Old,
Did the Job Single
Handed.

New York, July 2.—New York's \$100,000 gem mystery that puzzled police and private detectives for four days was cleared up today, when the arrest of William Beck, a 19 year old clerk, who, after making several conflicting statements, confessed that single handed, he planned and executed the looting of a jewel safe in the Fifth avenue store of Udall & Ballou last Friday. A fee in the store basement, which was believed to have been set as a cover for the robbery, has not been satisfactorily accounted for as yet, young Beck insisting that he knew nothing as to the origin of the blaze.

In a suitcase checked in the baggage room at the Pennsylvania station was found all of the missing gems.

Beck, having fed with his bag of gems, checked them, intending to over-
"Last summer Beck says another employee gave him the safe combination during a casual conversation. Beck kept it in memory. Friday, at quitting time he hid under a basement stairway. The other clerk departed as did the official whom he accused and exonerated. Beck left his retreat and crawled to the safe. The door opened easily under his manipulation. He placed the jewels in his valise and left the store. The burglar alarm had been set ringing automatically, but he was on an elevated station when detectives arrived at the shop.

OFFICERS ELECTED. Temple of Israel Has Election and Installation.

The Temple of Israel had an election and installation of officers on Wednesday evening, July 2. The following officers were elected:
President—Jacob Cohen.
Vice President—Nathan Levine.
Secretary—B. Nicholson.
Treasurer—Max Pollmer.
For trustees, Messrs. Sam Gafey, M. Silverman, and J. Gilman.
Insolite Guard—Ben Cohen.
After the election a banquet was held. The majority of the Hebrews of Portsmouth were present and they enjoyed the evening until 12 p. m.

A REMINDER OF 50 YEARS AGO.

Col. G. H. Dana, who is stopping at hotel Parkfield, Kittery Point, remarked this morning to a Herald man that it was just fifty years ago today that he received a bullet that went

TRYING HARD TO AVERT! THE STRIKE

Boston Chamber of Com-
merce Make Progress With
Elevated Men.

Boston, July 2.—The Boston Chamber of Commerce intervened in the controversy between the Boston Elevated Railway Co. and the union of its 7,000 employees in an attempt to avert the threatened strike.

They succeeded late tonight in securing a promise from union officials that no strike would be called until the committee of the union had an opportunity to confer again with a committee from the chamber of commerce.

The street carmen, however, will carry out their original plans and will vote at meetings tomorrow and early Friday morning on the question of calling a strike.

The company tonight named Samuel L. Richards, its attorney as its representative on the joint board of arbitration provided for by the original agreement at the time of the settlement of the strike a year ago.

The elevated officials notified their employees tonight that in the event of a strike they would make no attempt to operate cars.

BACK AGAIN IN CAMP

The Cooper family of gypsies of Sumnerville, Mass., took up their summer camp at the Sagamore on Wednesday where they have passed the season for the past 25 years or more.

Office of Board of Health.

P. A. C. BLANK THE KNIGHTS OF COLUMBUS

Athletics Had Their Batting Eye and Newick Hits for Two Three Baggers.

Eleven to nothing tells the story of the game between the P. A. C. and the Knights on Wednesday evening for it was a runaway match for the Athletics, who hammered Cooper the Knights offerings in the opening inning for eight runs. There were a couple of more errors scattered in the inning, but good hard hitting which was wanted were there also. Newick with three men on hitting for two bases, Lynskey with two men on making a home run etc. The game was delayed some minutes for Cooper who did not arrive until his team was in the field and without any warming up went into the box, where as Leary who had been warming up was sent to first. In the second inning Leary took Cooper's place and while he was hit more or less he was a great improvement over Cooper.

Geo. McPherson was in the box for the P. A. C. and while he was wild allowing four passes he was only reached for two singles.

There was not the usual large crowd present and at times it looked as though the game would be called on account of darkness or rain for it sprinkled some.

The Game in Detail.

FIRST INNING

The Knights were in and O'Brien struck out, Gibbons hit to Newick who made a good stop well off the bag and McPherson covered first in time to get Gibbons. Braden hit to Newick and was retired.

G. Woods hit a single to first, Hoffman at second and let it go through him. Braden attempted to sacrifice him but Riney's throw was low and both were safe. McPherson out a bunt, and with the bases cleared Newick walked and a two base hit to center field scoring Woods and Braden. Weare was walking and with three men on, Hobbs started scoring. McPherson and Newick, Lynskey picked out a nice one and walked it into deep center and easily made home sending in Weare and Hobbs. Locke made the first out, a high fly that Leary made off the players bench. Woods hit to Hoffman who repeated the trick of the opening and the ball rolled to right. Woods stole second and Geo. Woods hit to Hoffman who retired him at first. Braden hit to Gibbons who fumbled and W. Woods scored. McPherson retired the side. Cooper to Leary.

Score P. A. C. 8, K. C. 0.

SECOND INNING

Mates hit to Bill Woods who dropped the ball and threw it wild to first allowing Mates to make second. Hoffman was safe on Newick's dropping a throw but he was thrown out stealing second. Mates remaining on third, Hiney and Leary were passed filling the bases. Kieran struck out and Cooper hit to Braden who forced Leary at second.

Newick opened with a three base hit to the tenth count. Cooper retired in favor of Leary who struck out. Weare and Hobbs, Lynskey hit a high fly that Leary dropped, and Newick scored. Locke hit to O'Brien

who made a great catch.

Score P. A. C. 8, K. C. 0.

THIRD INNING

O'Brien was passed, Gibbons flied to Weare, Braden fanned and Mates hit a liner to Locke that he pulled.

W. Woods was safe on Cooper's fumble. G. Woods singled and Bill Woods scored. Braden flied to Cooper who made a fine running catch well back of first. G. Woods was thrown out stealing third and McPherson fanned.

Score P. A. C. 10, K. C. 0.

FOURTH INNING

Hoffman opened with a single, three fanned. Leary passed a foul fly to Newick. Kieran singled but Cooper flied to Locke.

Newick was again up and this time he hit to right for another three base hit, and scored on a wild pitch. Weare fanned, Hobbs raised to fly to Braden and Lynskey to Gibbons.

Score P. A. C. 11, K. C. 0.

FIFTH INNING

O'Brien was passed, Gibbons struck out, Braden flied to Weare who doubled O'Brien at first. The score:

BASKET WEAVING AND CLAY MODELLING

The classes in basket weaving, clay modelling and dolls furniture, are of ever increasing favor amongst the children at the playgrounds. During the warm weather which has been with us the past few days, the playground has been the center of many groups of children busily engaged in the arts above mentioned, many having become very proficient.

Filipino Diamond Warriors Here to Display Their Baseball Skill

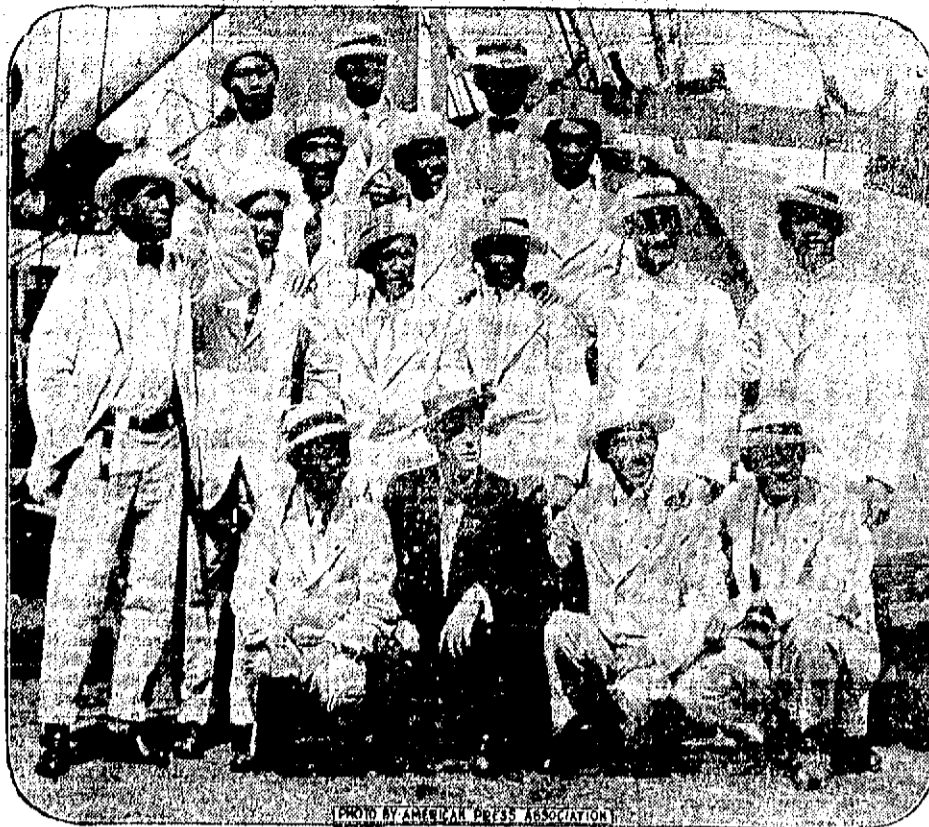

PHOTO BY AMERICAN PRESS ASSOCIATION

San Francisco, July 3.—America has been invaded by Chinese, Cuban, and Japanese baseball teams, but now it is the Filipino. Recently an all-Filipino team composed of the best players in the Philippines arrived here for a tour of the United States.

M'LAUGHLIN DEFEATS ENGLAND'S BEST TALENT

Wimbledon, Eng., July 2.—Maudie P. McLaughlin of San Francisco, the United States lawn tennis champion, by defeating today in three straight sets Stanley N. Doubt, the Australian Davis Cup champion in the final round of the All England lawn tennis championship tournament, won the right to challenge A. P. Wilding of New Zealand, the title holder, and the match will be played here on Friday.

The youthful American had triumphed his own way throughout the match, which was played before about 10,000 spectators, in brilliant weather, occasionally, however, by a supreme effort Doubt succeeded in giving a good exhibition game.

Play started at 2:30 p. m. McLaughlin made a good beginning by winning the first game to love with four consecutive aces. Doubt being unable to make any return. The Australian then neutralized with his service, which the American found too soft for his liking, but coming more up to the net he took the next three games and established a lead at 4 to 1. Doubt then managed to bring the score to 4-2 on his service by clever net work but after this he had very little chance against the American's placing and hard hitting.

Doubt began the second set well with a love game and after the American had won the next game with his unbreakable service the Australian picked up another love game. He was now playing with more confidence, but although he established a lead of three games to 2 he could not maintain it. The Californian was leading 5 to 3 when Doubt made another recovery and pulled up to 5-5, but it was a hopeless effort, as McLaughlin easily took the winning game on his service.

The third set also opened well for Doubt. After taking the first game he won on McLaughlin's service for the first time after a fiercely contested game in which Doubt was called three times.

Then he won the third game to love giving him a lead of 3-0. Matters changed, however, and McLaughlin winning three straight games by wonderful mid-court hits, drew level at four all. Doubt took the next game, but failed to gain the set, as McLaughlin won two games in succession. Doubt defaulted on his own service, and the American then won on his service.

The English team to defend the Dwight F. Davis International lawn tennis trophy is composed of J. S. Clarke, H. Roper Barrett, C. P. Dixon and A. W. Gore. The remainder of the Lawn Tennis Association made the selection this afternoon.

GOOD ON ALL CLASSES OF MAIL

class mail and distinctive parcel post stamps are valid. The regular issue of the stamps and distinctive parcel post stamps are valid for the collection of unpaid and short paid postage on all classes of mail. The issue of parcel post due stamps will be discontinued when the present supply is exhausted.

MARINES WIN. Defeat Tennessee Ball Team on Seavey's Island Diamond.

On the Seavey's Island diamond on Wednesday afternoon the United States Marine Corps baseball team defeated the U. S. S. Tennessee ship, by a score of 11 to 5. For the winners the stick work of Hoover was the feature, for the losers Cooper did good work.

Tobacco Should be Smoked Up As Soon as it's Cut Up

Then it is bound to be fresh—to smoke cool and sweet—because the natural moisture hasn't a chance to escape. That's the reason experienced smokers stick to the good old Sickle plug—slice off a fresh pipeful as they need it—and get all the original flavor and fragrance that have been pressed in the plug, and kept there by the natural leaf wrapper.

These smokers could save a minute's time by getting their tobacco already cut up—but they know it would also be dried up, would burn fast and bite their tongues.

You'll find solid satisfaction in smoking Sickle. And you'll get more tobacco, because there is no package to pay for. Your dealer sells Sickle.

COUNTRY FAIR AT THE UNIVERSALIST CHURCH

Successful Entertainment and Sale Under Young People's Society.

The grounds of the Universalist church on Pleasant street was the scene on Wednesday evening of a very interesting and profitable entertainment, arranged under the auspices of the Young People's Society of that parish. It was in the form of a County Fair and there was everything to attract and to make people spend money and be well satisfied with spending it. It was a most successful affair like everything this hustling organization undertakes.

It was held on the lawn of the church and there were tents for the various sales and in the rear a real money-making machine. This the property of Ralph Hett and William Parsons attracted all the attention and both were present to explain the working of the flying machine.

During the evening there was a vaudeville entertainment given in the vestry of the church and it consisted of:

Reading, Miss Ethel Lynde
Solo, Miss Missie Ingles
Dance, Looking Backwards, by ten little girls.

The different booths and their attendants were:

Pajany work, Mrs. R. H. Hill, chair
man, Miss Florence Garrett.

Fortune teller, Made Zylte.

Fruit punch, Mrs. A. H. Entwistle
and Mrs. George Dixon.

Agony, Miss Florence Hanson
chairman, Mrs. P. H. Hanson, Mrs.
S. B. Holl, Mrs. M. S. Cole.

Candy, Miss Margaret Garrett and
Miss Mabel Sherd.

Cake, Mrs. Geo. Plaisted, Mrs. Har-
old Jenkins.

Ice cream, Mrs. J. W. Wood, Mrs.
Christopher Smart.

Pop corn, Mr. Geo. Plaisted, as-
sisted by Stanley and Russell Hammond
and Harold Cronin.

African dodgers in charge of A.
Leon Smith.

Came ringing, Mr. Geo. Hawthorne.

Fish pond, Mr. Geo. Dixon.
The executive committee in charge
were J. Verne Wood, president, Mrs.
Florence Hanson, vice president,
Miss Ella Lord, Edward Cornelius,
Mrs. Mary S. Cole, A. Leon Smith
and Rev. C. C. Hooper.

CONFIRMS NEW PUBLIC SERVICE COMMISSION

Executive Council Acts Unanimously
on Anderson and Lawrence, and the
Otha Hold Over Under New Law.

Unanimous approval of Governor
Foss's nominations of George W. An-
derson, an attorney, and former Con-
gressman, George P. Lawrence was
given this afternoon by the Executive
Council, when it considered the new
Public Service Commission's makeup.
It had been expected that there might
be opposition to Anderson, but there
was no evidence of it at the meeting.

Under the law the members of the
Railroad Commission, which now is
out of being, were made members of
the new body, the governor merely
naming (he terms for which they are
to serve. This he did by electing
Frederick J. Macleod, chairman of the
former Commission, for the five-year
term, Clinton White, two years, and
George W. Bishop, one year. Law-
rence is to serve three years and An-
derson four years.

FOURTH OF JULY SPORTS

All the local athletes wishing to
compete in the sports at the play-
ground the Fourth should send or
hand their names in to the Supervi-
sor today, this being the first local meet
of the season should draw out a
large number of entries. The meet
will be held at the south playground
on Friday, July 4th, at 10 a. m. The
events include a good variety for men
boys and girls.

Seniors, 100 yard dash, 220 yard

dash, running broad jump, running
high jump, three standing broad jump
shot put, potato race and three legged
race.

Boys: 50 yard dash, 100 yard dash,
standing broad jump, running high
jump, shot put, potato race and three
legged race.

Girls: 20 yard dash, 50 yard dash,
running high jump and potato race.

Mines, Washington, D. C.

NOTICE.

The attention of citizens is hereby
called to the following notice. The
discharge of firearms of any descrip-
tion within the described area is not.

From Market Square through Mar-
ket street to foot of Hanover, through
Daniel to Penhallow, through Pleasant
to State, through Congress to Middle,
from Pleasant on State to Middle, is
positively prohibited at all times.

The discharge of any sort of fire-
works in any other part of the city
of Portsmouth before Thursday night
at 6 o'clock, July 3, 1913, is also pro-
hibited.

Any person violating this order will
be prosecuted to the full extent of the
law.

Per order,
MICHAEL HURLEY,
City Marshal.

BAR MEN FROM WOMEN'S POOL

Washington July 1.—Girls of the
younger society set are up in arms
over an order prohibiting men from
the municipal pool on ladies day.

going in swimming with them in the
municipal pool on ladies day. Dr.
William B. Hudson the superintendent,
barred the men when he received
a petition from a score of women
bathers.

Heretofore men who accompanied
women to the pool were allowed to
go bathing, primarily to teach the
women to swim. But of late the peti-
tioners allege some women have been
taking two or three men who swim
boldly about taking possession of
things in general and obstructing the
endeavors of some who paddle about
without masculine assistance.

\$100,000 FIRE IN NEW YORK

Slaughter Houses of J. Stern & Son
Are Destroyed.

New York, July 2.—On one of the
hottest mornings of the summer the
city's women fought early today the
hottest fire they think they ever en-
countered. The big slaughter houses
of J. Stern & Son, covering nearly a
whole block on North street, were
destroyed. The loss is estimated at
upwards of \$100,000.

PUBLIC LIBRARY
ELECT OFFICERS

At the annual meeting of the trust-
ees of the Portsmouth Public Librar-
y on the 27th of June the following
officers were elected:

Treasurer, C. A. Hazlett.
Secretary and Librarian, Hannah
G. Fernald.

Assistant Librarian, Emma B.
Young and Gertrude M. Magraw.
Janitor, John Cleary.

The library has experienced em-
ployees, the treasurer having served
twenty-three years, and the librarians
for long terms. They have placed the
Portsmouth Library in the front rank
as regards circulation and patronage.
The trustees are to appeal to the City
Council for funds for an enlargement
of book stacks. The constant in-
crease of books has filled the shelves
and hundreds of books of large cir-
culation have to be placed in the sec-
ond story entailing extra work upon
the librarians and delays to the pa-
trons.

BUFFALO PLANNING BIG ENTERTAINMENT FOR HEALTH WORKERS.

The city of Buffalo is preparing an
elaborate entertainment for the sev-
eral thousand delegates expected at
the Fourth International Congress on
School Hygiene, according to a state-
ment just issued by H. Herbert Blake-
lee, Executive Secretary of the Buffa-
lo Citizens Committee. The Congress
will be held the last week in August,
and will be attended by delegates
from all the leading nations of the
world.

"The program of the entertainment"
says Mr. Blakelee, "will be of such a
nature that something will be ready
for the delegates every spare mo-
ment outside of their regular work. The
various clubs of the city will be open
to visitors. Special automobile trips
will be taken through the beautiful
parks of the city, ending at the Coun-
try and Park Clubs, where polo and
tennis exhibitions will be given. There
will be special receptions at the Buf-
falo Club, the University Club and
Twentieth Century Club. Different so-
cieties of the city are also planning
to entertain the delegates from their
gatherings. There will be an exhibi-
tion of folk dancing, interspersed with
music by the combined choral socie-
ties of the city. There will also be
special trips to the world's great scenic
wonder, Niagara Falls.

"The Women's Entertainment Com-
mittee is composed of over 100 of the
leading society and club women of
Buffalo. The Women's Committee is
divided into groups representing dif-
ferent foreign countries and sections
of our own country. There is a
French, German, Italian, Russian, Pol-
ish, Scandinavian, South American,
Mexican, East, West, and Southern
states, Scotch, Irish and English
group, and the duties of these groups
will be to look after the delegates
from these particular localities.

"During the Congress nearly 2000
boy scouts of Buffalo will act as
guides to the visitors. Boy Scouts will
be stationed day and night at the rail
road stations and docks to meet the
visitors upon their arrival. Each boy
will wear a badge indicating what
foreign language he speaks so that it
will be no trouble for the delegates
to make their wants known. The wom-
en's clubs will also give their ser-
vices in assisting the women at the
different headquarters and meeting
places of the Congress.

"Buffalo is aiming to make this
Congress a notable gathering. We
recently took up a collection of \$40,
000 for defraying the expenses of the
Congress, and among those who con-
tributed were not only the wealthier
citizens, but also the news boys, and
school children. Even the children of
the night schools in the poorer sec-
tion of the city contributed their
mite. So you see we are very deeply

interested."

The opening meeting of the Con-
gress will be held at 10.30 a. m. Au-
gust 25th at which time either Presi-
dent Wilson or his representative, and
the Governor of the State, with Dr.
Charles W. Eliot and Mrs. Honor the
Mayor of Buffalo, will address the
delegates and welcome them to the
city. The Congress will close August
30.

STOLEN JEWELRY RECOVERED

New York, July 2.—The more than
\$98,000 worth of jewelry stolen from
the fifth avenue firm of Udall & Bal-
lou were found today in the Pennsylv-
ania railroad station in a valise.

The jewels among them a rare blue
diamond of great value, were stolen
Friday night last, incident to the ex-
cavation caused by a fire in the es-
tablishment.

No arrests were made, but Wil-
liam Beck, a young repair clerk in
the store, when taken to police head-
quarters for questioning, jumped from
a window of the building and fled.
He had not been found up to this
morning.

Estimates of the value of the Jew-
els were first given at \$100,000. Later
this was increased to nearly \$200,000.
Yesterday, however, the firm officially
appraised its loss at about \$90,000.

Detectives found the valise last
night and waited until this morning,
hoping to arrest whomever came
to claim it. When no one put in an
appearance they took the find to po-
lice headquarters. There were 450
pieces of jewelry in the lot.

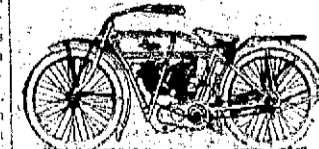

AN AWFUL WASTE OF WATER

The Board of Public Works' work
announced on Tuesday of this week

Omega Oil
for Pains
in the Back

Soak a towel in boiling hot water,
wring it dry, place it over the part of
the back that hurts for a few mo-
ments. This opens the pores. Then
rub in some Omega Oil. Quick relief
usually follows this simple treatment.
Trial bottle 10c; large bottles 25c, 50c.

Editorial.....28 | Business.....37

Portsmouth, N. H., Thursday, July 3, 1913.

Stop, Look, Wash!

At a wedding breakfast in Camden, N. J., fifty guests have just been seriously poisoned by a salad served on lettuce that had been sprayed with paris green. What sharp sight could descry on crinkly green leaves any traces of a dissolved green powder left by an evaporating mist? To spray lettuce with a poison so virulent and so invisible was either a stupidity beyond belief or a wilful taking of a murderous chance. Close upon the report of this wholesale poisoning, the Department of Agriculture issues a warning to lovers of celery. The market gardeners now are using copper sulphate in protection of the growing plants. The Department advises the consumer to see that the bunches coming to the kitchen are divided and stalk by stalk scrubbed and cleaned. As the leafy tops cannot well be freed from the copper, they must be rejected outright.

Celery and lettuce are perhaps especially dangerous, for they are usually eaten raw; but in these days every product of the garden is likely to bring to the consumer some trace of diluted poison. Of course the old-time preventives, road dust and ashes, lime, sulphur, sprays and emulsions are still in general use; there are slugs and lice, and blights and rusts, and worms and borers quite enough to call for every remedy, however old or lenient; but recently pests have so multiplied, the will diseases and the blossom rots so spread, that they necessitate less gentle weapons, paris green, blue vitriol, arsenate of lead, corrosive sublimate. Employed with ordinary care these poisons of high potency do no harm on vegetables cleaned well before using. But let the poisons be put on ignorantly, applied too near the time of marketing, or altogether misapplied, like the paris green of the Camden lettuce, at once they become a menace in our food supplies.

The Herald, renewing its cautions of a year ago, urges the housekeeper to assume that all fruits and green things bought in open market have been sprayed with some kind of poison, weak or strong, and to wash them piece by piece in running water.—Boston Herald.

Character Is Worth More Than Clothes.

It is better to have the reputation of paying your honest debts than of being a leader in society. All the glory of social life cannot compensate for the ignominy of getting through on false pretenses. The wretchedness of a man or woman who, for the sake of display, is hunted day and night by creditors, who almost fear to walk the streets, is pitiable. There must be an end to him and a bitter one. Character is worth more than clothes, and independence than the social swim. It may not cut as great a sweep or attract as much attention but it will last longer and bring them much reward in the end.

A Good Place to Live In.

At the present time there seems to be a good natured rivalry between our citizens to make our city a good place to live in. On every hand can be found evidence of this commendable spirit being fostered in our midst, the friendly competition of traffic, the observance of social amenities, the support of church and school, the beautifying of home and environment, and all else conspiring to that end. These and more may be secured through well directed effort.

Buy at Home.

Don't be a chump. Give your trade to the merchants who keep store the year around. Buy of the man who stands at your side at the tax collector's counter. Buy of the man who is your neighbor, your acquaintance, your friend. Buy of the man who is a factor in the town you live in, who helps to make a market for the things you have to sell. Buy of the home merchant that advertises in the newspaper.

The Race Problem.

This country has the race problem, the social problem and many others but none are worse than the hobo problem. An army of idlers, men who absolutely will not work, is a cancer on society that must soon be dealt with. It must be treated as a contagion. The strong arm of the government must find the remedy that cures.

The Place to Live.

If, perchance, a copy of this paper should fall into the hands of any who are in search of a new location—a place where you can live out your allotted number of years without the fear of pestilence or famine, we say, like one of old, "Come thou with us and we will do you good," with emphasis on the "do."

They Prefer Africa.

We know of a few men in this community who are willing to go to Africa as missionaries, but who are not willing to take care of a cross baby for a tired wife for half an hour.

READY FOR THE FOURTH OF JULY PARADE.

Hear the drums with their rub-a-dub-dub, boom, boom!

A sound that pleases all girls and boys;

We could follow the drums and the fifes all day,

For we like a Fourth with plenty of noise.

RAILROAD NOTES

The relief train stationed here on the Boston & Maine is still without the steam derrick which has been all over the system and is now in the shop for repairs.

The pulling out of a draw bar rigging on a coal car of the Portsmouth and Seaboard freight last night, caused a delay in the traffic between Jewett and Portsmouth.

Eugene Williams of Kittery is employed during the rush at the transfer office of the American Express Co. at the depot.

On account of heavy business the marine department of the New Haven road has added an extra boat to the Fall River Line service.

Boston News Bureau.—A stockholder of the Boston & Maine says "My father valued our Boston & Maine at \$250 per share. I think he would turn in his grave if he knew it was now selling in the 50s. I got an explanation however, from an engineer that ran on the road, who told me, 'I can run my train onto a skid and lay off an hour or two and extend my day so as to draw over time and make as high as \$70 a week.'"

"The Boston News Bureau has it correct. The labor organizations have gotten up the Boston & Maine, is there no limit to their demands?"

An Altoona dispatch says that all freight records of the Pennsylvania railroad for June were broken 1-1-1 month. A total of 217,301 cars were handled on the middle division, surpassing the previous high June month 1907, when the number was 210,181 cars.

Loaded cars approximately one half of the movement.

The New Haven railroad has filed a new rate schedule intended to equalize commutation fares in Rhode Island, to go into effect August 1.

BREEZES FROM THE NEIGHBORING RESORTS

Mrs. Ella M. Catlin and daughter, Miss Ethel, and sons, Clarence and Richard, of Malden, Mass., are sojourning at Rye Beach for the summer.

Mr. and Mrs. Thomas A. Mulvanity and Charles Burns of Nashua are enjoying a vacation at Hampton Beach.

Joseph Bouchard of Nashua, will be the guest of friends at Hampton Beach over the holidays.

Frank Rath of Nashua is at York Beach, Me., for a two weeks' vacation.

CURRENT OPINION

A WEAKNESS IN TEACHING SYSTEMS.

Some of the conditions which must in America greatly affect the efficiency of teachers have not received adequate attention in recent discussion. At the present time, fully 75 per cent, if not a larger proportion of teachers in American schools, are comparatively young people who give but a few years to this service and then seek other occupations, including those of home making for women. It may be expected that this condition will persist indefinitely into the future.

Of all persons who by accident or design make teaching a permanent profession only a small percentage are gifted with inventive ability or capacity for initiative in any unusual degree. Under present economic conditions, this state of affairs also may be expected to persist indefinitely.

A large part of the general educational program, now established in American schools, is characterized by indefiniteness of aim and by inadequate standards. In a few of the subjects which we teach, such as penmanship, reading and arithmetic, we know quite well what should be the controlling aims guiding such teaching, and standards have been agreed upon in some measure. But with regard to other subjects, such as history, geography, science, foreign languages, art, practical arts, and other subjects, we have as yet no clearly defined aims, which serve to guide us in elaborating method. This indefiniteness of aim and inadequacy of standard necessarily makes all teaching of these subjects uncertain and ineffective. On the basis of a foundation of general training, many young women should be directly trained to teach in particular grades or particular subjects. So far as the rank and file of teaching service is concerned, the attempt to transform normal schools into teachers' colleges is futile and wrong. Teachers in service should be assisted to qualify themselves to obtain better results in successive special fields. The subjects of the curriculum, at least those with reference to which it is desirable that definite standards of efficiency on the part of the learner should be attained, should be more definitely organized. The ends aimed at should be clearly defined. The best methods of attaining these ends should be determined experimentally. Let us try the plan in education of giving work to our teachers, trained or untrained, which we have reason to believe they can comprehend and do.—David Snodden, Massachusetts Commissioner of Education.

the regular choir. Sermon by Mr. Stedman.

A lawn party will be held on the parish grounds on Tuesday evening, July 8th.

The annual parish picnic will be held at Rand's Grove, Cable Road, on Thursday, July 17th.

Order Your Holiday Supply from Dealers at the Sign of the Anchor

KITTERY

Breezy Items From the Village Across the River.

Kittery correspondent's telephone, 778-M; P. O. address, Box 303.

The Phobes will have a lawn party tonight on the grounds of John Carroll on Wentworth street, instead of at the parsonage, as previously announced.

Mr. and Mrs. Homer Philbrick, two little daughters, Irene and Jeanette, and baby son, of Quincy, Mass., are the holiday guests of Mr. Philbrick's parents, Mr. and Mrs. Walter Philbrick of Pine street.

Mrs. Arnaldo Nafino was elected assistant superintendent of the Second Christian Sunday school, instead of Mr. Nafino, as stated recently in this column.

Walter Dounell of Lynn, Mass., arrives tonight to pass the holiday with his parents, Mr. and Mrs. P. E. Dounell.

Harry Crouse of Commercial street underwent a serious operation at the Naval hospital on Wednesday. The operation was performed by Dr. Hamilton of Boston. He was resting very comfortably this morning.

Leo J. Irish of Providence, R. I., arrives tonight to spend the Fourth and week-end with relatives here and at Kittery Point.

Master Ralph Gerry of Kittery Depot accidentally fired a blank cartridge into his left hand on Tuesday evening, a painful wound resulting therefrom.

Master Karl Chlek of Kittery Depot has accepted a position at "The Oak-leaf," Elliot, for the season.

Miss Anna Bernick of Montreal, Canada, has arrived in town to spend the summer with her mother, Mrs. Fannie Bernick of Locke's Cove.

Sherman Waldron of Oils avenue has taken a position with Billings Express Co.

Mrs. P. N. Brann of Wentworth

street will entertain the Ladies' Aid of the Second M. E. church this evening.

The tennis grounds near the Rice public library are being put in good condition by the Racquet Club for the summer games.

A band of gypsies arrived in town yesterday and are encamped in Granville Spinnery's pasture on the Post road near Kittery Depot.

Regular monthly meeting of the Christian Endeavor Society will be held in the vestry of the Second Christian church this evening. The meeting will be of brief duration, owing to the meeting of the Phobes.

OBSEQUIES

Harry B. Goodwin

The funeral of Harry B. Goodwin was held from his late home on South street today at 2 p. m., Rev. Alfred Gooding officiating. Interment was in South cemetery under the direction of Undertaker O. W. Ham.

John G. Oliver

The body of John G. Oliver who died in Goffstown, N. H., June 30, arrived in this city last evening. A delegation from Osgood Lodge I. O. O. F. met the remains at the depot and held their services at the grave. Interment was in Harmony Grove cemetery under the direction of Undertaker H. W. Nickerson.

GOVERNOR TENOR AS HOST

Gettysburg, Pa.—The Governors of many states today participated in the second day's program of the great Blue and Gray reunion on the field of Gettysburg. Governor John K. Tenor of Pennsylvania, acted as host to the visiting chief executives at a formal reception. Later in the day he was master of ceremonies when addresses were delivered by many prominent veterans and civilians.

Dean's Requests are recommended by many who say they operate easily, without gripping and without bad after effects. 25 cents at all drug stores.

KITTERY POINT

What Is Happening In the Harbor Town.

Mrs. Herbert Baker has resumed her duties at York Beach for the summer.

Mrs. R. H. Benny and Miss Ethel M. Cann of Roxbury, Mass. are visiting Mr. and Mrs. W. H. Tobey.

The next meeting of the S. V. Fancy Work Club will occur on Wednesday at the home of Mrs. Frank Abrams.

Miss Eleanor Johnson observed her 16th birthday on Tuesday evening by entertaining a number of her young friends. The grounds were prettily decorated, games of various sorts were enjoyed and refreshments of sherbert, punch, ice cream, assorted cakes, etc., served. Those present were Florence and Lottie Brooks, Hazel Weeks, Margaret and Hattie Bates, Samuel Estes, Webster Randall, Waller Blake, Marion Randall, Charles Lewis, Edgar Seawards, Benjamin Seawards, Alden Phillips, Dorothy Waldron, Norman and Harold Chick, Edith Seawards, Harry Seawards, Eleanor Lambert.

L. H. Sawyer underwent a serious operation on Wednesday at the hands of a specialist from Boston. In the evening his condition was reported as satisfactory.

The Good Luck Whist Club was pleasantly entertained on Wednesday afternoon by Mrs. Julia Tobey. Prizes were awarded as follows:

First—Mrs. Luther Lewis.
Second—Mrs. George Gunnison.
Third—Mrs. E. Leroy Tobey.

Miss Clara Lowell has returned to her home in Revere, Mass., after spending several weeks with Mr. and Mrs. Fred W. Durr.

Mr. and Mrs. Dana Philbrick are receiving congratulations upon the birth of a daughter.

Mrs. John Shapleigh of Elliot visited

her sister, Mrs. Thomas D. Bray, on Tuesday.

Frank T. Clarkson was a visitor in Biddeford on Wednesday.

Hiram Tobey Jr., and Philip Brooks are enjoying a vacation from their duties at the navy yard.

Mr. and Mrs. Claude Tobey are entertaining Miss race Walker of Portland.

The captain of the schooner Willis and Guy of Harrington, Me., at anchor in the lower harbor, was taken to the Portsmouth Hospital for treatment on Wednesday.

Mrs. Charles Billings has returned to her duties at York Beach for the summer.

The Sleepy Hollow Club met at the home of Mr. and Mrs. J. A. Blake on Monday, leaving substantial remembrance for their son, William Blake, who through an unfortunate accident at the navy yard, is incapacitated for work.

Mrs. E. E. Gerrish of South Berwick was the guest of Mr. and Mrs. Frank Clarkson on Thursday.

The fire company held a practice drill on Wednesday evening.

Sailed—Schooner Minnie Slanson, St John, N. B., for New York.

Schooner Rebecca G. Wilden, Calais for Milford, Conn.

Schooner John Bracewell, South Amboy for York.

Following is the programme for the entertainment at the Free Baptist church on Wednesday evening:

Piano duet—Miss Hattie Mitchell and Miss Clara Bray.

Prayer.

Reading—Mrs. Adah Tobey.

Solo—Mrs. Bernice Locke.

Reading—Miss Emma Randall.

Vocal duet—Mrs. William Upton, and Mrs. Adah Tobey.

Reading—Miss Esther Drake.

Solo—Mrs. William Upton.

Reading—Mrs. Fletcher.

Piano duet—Miss Mitchell.

Singing by mixed quartette.

PIANO RECITAL

Pupils of Miss Foss Give Pleasing Program Last Evening.

A piano recital was given Wednesday evening by the pupils of Miss Josephine Foss at her home, Rye Center, at which the following program was rendered in an excellent manner:

Jeune de Pote.....Strakoski

Doris Yenton.

Herdsmen's Song, Surtorio, op. 1004, 3

Pearl Berry.

Baby's Cradle.....Willis

Pauline Philbrick.

E. Z. Schottische.....Lerman

Mary Thumans.

Vocal Solos—

(a) Absent.....Metcalfe

(b) A Dutch Lullaby.....Stultz

Emma L. Foss.

In Merry Mood.....Werner

Helen O'Brien.

Fratrie Flower, Hooker, op. 17, No. 1

Lena Wilson.

Primrose.....Surtorio, op. 72, No. 1

Allee Kennedy.

Dancing Sunbeams.....Werner, op. 18

Mary Kelley.

Humoresque.....Dvorak

Mrs. Bertha Trefethen.

Violin Solo

Herman Pettigrew.

Blanche Pettigrew, accompanist.

(a) Merry Lads and Lasses.....Sutford

(b) Danse Villageoise.....Pennington

Op. 10, No. 1

Leora Moulton.

Mocking Echo.....Scholl, op. 50, No. 11

Dorothy Jenkins.

(a) Rose.....Behm, op. 84, No. 1

(b) Country Grace.....Martin

Hazel Drew.

Vocal Solos—

(a) An Irish Love Song.....Lang

(b) Sunrise and Sunset.....Spross

Duet—Shower of Stars

Mrs. Trefethen, Miss Brooks.

(a) Flying Leaves.....Kolling, op. 147

(b) Danse des Sorcierus.....Devaux, op. 2

Blanche Pettigrew.

Robin's Return.....Fisher

Doris Yenton.

(a) Danse Russe.....Viylan, op. 11

(b) Sun Shower.....Atherton, op. 153

Laura Brooks.

At the conclusion of the program dainty refreshments of ice cream, and cake were served by the gracious hostess. Many friends and parents of the participants in the program were present and greatly appreciated the creditable work of both teacher and pupils.

OBITUARY

Eugene J. Janvria

The many friends of Eugene J. Janvria of Hampton Falls in this city will be pained to learn of his death which occurred at his home this Thursday morning. Very few men were better known in this section of the state than Mr. Janvria, who for many years conducted a meat and provision route through Hampton and the neighboring beaches. Of a genial disposition he made friends with all whom he came in contact. He was a member of Portsmouth Lodge B. P. O. E., Union Lodge Knights of Pythias of North Hampton, and Winneconnet Council Jr. O. U. A. M. of Hampton. He was 48 years old and is survived by a wife and one son. The funeral services will be held at the home on Sunday.

FOUND—A quick detachable automobile tire; Good Wear make. Owner may have same by proving property and paying for this ad. J. Everett Odorne, Rye, N. H. he 393 81

NEW CASTLE

All the untoward effects of extreme heat on the physical, mental and moral nature of man are discernible during the blistering hot wave—natural agencies that sometimes challenge the might of Old Sol were lacking. He seemingly is not to be diverted from his task. It may be bromide to talk about the weather but how can one help it when the sticky silence of these July days is broken by no sounds save the drowsy splash of the mercury as it surges against the top of the giddy thermometer. We have sampled a strong touch of the heated term in New Castle this week, an exceedingly strong touch that we shall not soon forget.

Miss Alberta Drummond of Milford has arrived at the Foster cottage for the season.

Mrs. Winslow Amazeen is rapidly convalescing from her recent serious illness.

Mr. and Mrs. Conley Davis of Canada are sojourning at the Curils.

Mrs. Louise Emery has returned to her home after a several months' sojourn with her daughter, Mrs. Charles Tarlin.

Mrs. Jack Trusselle and children of Newark, N. J., has arrived to pass the summer at the Hall cottage.

Mrs. Sarah Ray and son Ralph of Swampscott are the guests of Rufus Emery and family.

Miss Mercedes White of Bridgeton, Mo., is passing a brief vacation with her parents.

The new time-table that Captain Lindsey has placed before the public has been most considerably arranged, enabling one to go and come almost at any and all desirable times in the day.

Mrs. Mary White is the guest of her daughter, Mrs. Harry Youton, in Rye. This week will see the return of many a son and daughter to their dear old island home. Everything points to a safe and glorious Fourth.

PORTSMOUTH

THEATRE PROGRAMME

For Wednesday and Thursday THE DISTRICT ATTORNEY'S CONSCIENCE—Lubin. In two parts.

Thinking he has convicted an innocent man he is craved with remorse. It grips strongly, keeps your attention hammered to the screen. A picture out of the ordinary, and great for young and old. Featuring Mr. Arthur Johnson and Miss Lottie Briscoe. Don't Miss it.

ACT—Schumann—Musical—The Raiders from Double L Ranch—Kalem.

A great western drama. The deadly feud between sheep herders and cattle men almost results in a tragedy.

ACT—RITA and Pauls—Singing Talking and Dancing.

Her Husband's Picture—Lubin.

A story of the studio very prettily told. He goes south because his lungs are weak. He falls in love with another man's wife. A nice picture.

All On Account of a Portrait—Addison.

A fine comedy. They are engaged but quarrel because she adores the picture of a famous pianist. They vow never to speak to each other again, but do they? Why of course they—Featuring Miss Mary Fuller.

THERE'S NO SECRET.

about how the rich of today got their wealth—they saved years ago, got a start and made money by having money!

You can do the same by steadily depositing with this bank, which pays 3½ per cent. interest on savings.

CONTRACT FOR WATER PIPE IS AWARDED

The bids were opened on Wednesday evening for the pipe and laying of the line for the Beverly Brook water system. The pipe contract of 200 tons was awarded to the R. D. Wood and Co., of Philadelphia. There were three bids for the laying, but the award will not be made until 10 days.

The line will be a 12 inch cast iron pipe laid from the Coffey track near Barbara Lane, across the field out under the eastern tracks across the field of the Morley Button Co., to Lexington and down to the reservoir. Once this is laid the Board of Public Works estimate that they will be able to supply all of the factories and railroad with all the water they use at the present time the water is flowing over the dam at the Beverly Brook reservoir.

THE LITERATURE OF INDUSTRIAL EDUCATION

What is considered to be the first extensive list of books and articles on industrial, trade, and vocational education yet compiled has just been issued by the United States Bureau of Education. The bibliography was prepared by Henry H. Evans, of the editorial division of the bureau, assisted by members of the library staff.

Literally hundreds of books and articles have recently appeared on this all-important subject, and it is in order to furnish a guide to the material now available that the bureau has issued this bibliography. About 800 carefully selected titles are listed, and the more important works are summarized for the busy reader who wants to see at a glance what a book contains.

Some of the topics covered are:

Work and citizenship; apprenticeship; "blind-alley" employments; continuation schools; vocational legislation; cooperative courses; economic and social value of industrial training; industrial efficiency; industrial education in foreign countries; attitude of trade unions; vocational guidance.

ANNAPOLIS EXTENSION WAITS ON WILSON

There are now 281 members of the new fourth class at the Naval Academy and a few additional candidates who have passed their mental tests, but there is no authority for further admissions to the Academy and these candidates will not be examined physically unless the Tillman bill extending the act of 1902 is approved by the President. This act, which provided for an increased number of midshipmen, has expired because the term of its effectiveness—ten years—has elapsed. The Tillman bill, which has passed Congress, will extend it and awaits the President's approval. If it is signed those candidates who have passed mentally will get a physical examination.

FOR THE BENEFIT OF PLAY GROUND

Another generous gift from the Hon. Woodbury Langdon has been added to the already fine equipment of the playgrounds, a tent, twelve by sixteen feet, which has been placed beneath the trees in the park. On July fourth this tent will contain a big cream booth when ice cream cones will be served throughout the day. The proceeds from the sale will be used for the advancement of the playground work. This is a worthy cause and the people show their appreciation of the playground work by making this a popular feature.

Hobbling, bleeding, or general illness have yielded to Doan's Kidney Pills, 50 cents at all druggists.

COOLER WEATHER IS PROMISED

Washington, July 2.—General relief from the hot wave east of the Rocky Mountains is believed to be in sight. The Weather Bureau here reports temperatures not as high in the middle west today as during the last several days. The wave has traveled eastward and today forced temperatures higher in the Atlantic states. The hottest section on the map was around New York and in New England. Cooler weather east, however, is expected tonight or tomorrow.

"To humidity," said Professor H. U. Frankfort, chief forecaster of the Weather Bureau, "is due all the suffering throughout the country. Tonight or tomorrow there will be rains almost generally throughout the eastern half of the country and that will help a lot."

The Pacific slope is not in danger of a heat wave, the Weather Bureau says. Temperatures are somewhat higher west of the Rocky Mountains, however.

Two deaths and more than sixty prostrations from heat occurred here yesterday. The highest temperature recorded by the local weather bureau was 90 degrees at 4 p. m. This is exceeded only by the 91 degree mark of June 16 for this year. Up state cities reported high temperatures yesterday. Official thermometers showing Albany 84 degrees, the hottest day of the year, and Elmira 98 degrees, the highest for two years, while other points experienced excessive heat, with general prostrations.

A BOSTON GIRL'S BUDGET

Sunday Concerts on Boston Common Would Have Scandalized the Puritans.—Today they are Commended By Visitors and Natives.—Anti-Suffrage and Anti-Socialist Sentiment are Very Active.—Such Work is All Educational.—Boston Bachelors Claim Not to Mind the Shortness of Life.—A Little Lady Proves the Folly of Getting Mad in Warm Weather.

Boston, July, 1913. Since the Chicago investigation showing that married men live longer than bachelors have been heeded and bachelors by their acquaintances who argue that self preservation should put them into the class of bachelors. The usual answer of the rest of suspicious women later to that he professes to the young.

How foolish it is to get excited about trifles in such a hot weather as New England has been experiencing is illustrated by the incident of a little lady who climbed up the steps of a Boston street car and seated herself with a sigh. She gave the conductor a dime and received a nickel which she held in her hand. Some other passengers got on and after again the conductor came around and demanded the lady's fare. "I paid it," she protested feebly. He insisted and she paid again. A man sitting next to her was indignant. "I saw you pay that fare he said. 'If I were you I'd make a complaint about it.' Oh, dear me," replied the lady, "I might sometimes, but on a day like this it isn't worth while arguing about a nickel."

Sunday afternoon concerts on Boston Common might be expected to cause the shades of the Puritan fathers to rise from their graves in the nearby cemetery; yet no such protests from another world greeted the first band concert given from the new ornamental bandstand which the late George F. Parkman's money has provided for Boston. The only protests were from those who protested to the lack of seating arrangements. It is all very well to say these protests, to have a line behind a line bandstand, but how about the tired shepherd and overworked car conductor who on Sunday afternoon might like to listen to the strains from Wagner and Strauss but not while standing on those hot, weary, aching feet. The alternative is to sit on the grass, but of that the supply is not altogether plenty. Consequently it is not surprising to find people writing letters to the newspapers recommending the Parkman scheme of allowing a concession to a contractor who lets chairs at two cents each. The chief doubt seems to be whether an American contractor could make good on so small a price for the convenience. The general favorable impression made by the music of the first of these concerts is indicated in the letter of a visiting New Yorker, Mr. Mark Westman, who writes: However, he it said to the credit of the conductor and the band that the programme was well chosen and well played. There would have been no occasion to escape any part of it even were there a painted programme to give warning. The rendition of Tchaikowsky's 1812 Overture, was especially notable, comparing favorably with the one heard the night before at Symphony Hall. And the bells were not so that it is evident that in visitors from the Massachusetts as well as to the north of the North and West Ends these concerts will prove a great democratic opportunity.

Famous in the old days for its anti-spirit Boston still has at least two vor-

acious anti-socialists. One of these is the Massachusetts Society opposed to the extension of the suffrage to women, which is planning a "state wide campaign against the votes for women." The other is a common cause society which is anti socialist and which has been getting forth its objections to socialism on Boston Common. The anti suffrage organization claims to have largely increased its membership in the last few months, which claims may well be true, for a surprising number of people who formerly were perfectly indifferent to the subject are now taking sides. Publicity is gradually bringing about conditions in which the public must decide which is right, the anti-socialist association has not apparently made any claims as to its membership—it is only about a year old—but it would not be strange, if it too, found many Massachusetts people glad and anxious to join, for thanks to Lawrence and Ipswich, socialist too, is becoming an issue in the Old Bay State.

ETHEL ANGER.

NO SOLDIERS IN THE MIXUP

It has developed that in the fight at Newcastle on Tuesday evening in which the County authorities were called upon, the soldiers from Fort Constitution were in no way connected with the trouble. It was at first reported that the soldiers, sailors and civilians were in the mix up but it is now in evidence that it was simply a scrap between sailors and civilians. One of the sailors was fired in court Wednesday by Judge Torrey and several of the others are being investigated.

CAPT. ROBINSON WAS SKIPPER

Maine food fishermen are looking hopefully toward the bill now pending before the State Legislature. The bill will commercialize the dogfish or establishing a bounty on same.

Says the Philadelphia "Inquirer" on the dogfish subject: "The dogfish has been growing more and more plentiful for many years, until the time has come for action. The Maine fishermen have for many years been urging Congress to put a bounty of from 2 1/2 to 40 cents on dogfish and to establish rendering works along the North Atlantic coast every 50 or 100 miles. That the extermination of at least the thinking out of the dogfish is practicable has been demonstrated thirty-five years ago the old Gloucester schooner Water Lily sailed from the Massachusetts port in command of Capt. George H. Haines, an experienced fishing trip. The plan was to fish for mackerel, herring, swordfish and set traps for dogfish and what food fishes could be taken.

"The Water Lily proceeded to Kellee Island, about 15 miles off Cape Cod. On the first day the high tide was from 8 p. m. to 3 p. m. and caught 1300 dogfish. From the total dogfish catch on that first day 285 buckets of livers were cut. Livers then brought \$1 a bucket, as they were converted into oil. Cheaper and better commercial oils today have practically added their usefulness for this purpose, which explains the rapid increase in the number of dogfish of recent years. The slaughter was so great that upon the second day the total catch produced but 35 buckets of livers. The dogfish had been thinned to such an extent that on the second day the food fishes began returning to Kellee Island grounds and 200 pounds of rockfish were caught where none had been taken the day before. The third day only an occasional dogfish was pulled in and the food fishes were taken in paying quantities."—Gloucester Times

Business Men Complain The Discontinuance of the Late Train from Portsmouth to Dover Causes Protest

Dover, N. H., July 2.—The taking off for the first time on record of the evening train from Boston, to Portsmouth arriving in this city shortly after 9, has caused much complaint from Dover business men, and as a result Mayor Charles H. Ross has written General Passenger Agent Harrington that the train be restored, it was stated today.

Under the new summer schedule the last train for this city from Boston leaves the North station at 5:43 p. m. Hereafter there have been later trains for Dover on both branches of the Portland division.

Unfavorable Weather Conditions Washington, July 3.—Despite unfavorable weather conditions the fire danger up to today on national forest reserves has been unusually small, according to a report issued today at the Forestry department. The report states that owing to better conditions afforded by blizzards, appropriations for fire fighting in the forests, the year 1913 so far has been unusually free from the devastating fires which have marked former years. It is estimated that thousands of dollars have been saved through the arousing of public interest in the care of forest lands.

BATTLESHIP IN GREAT DANGER

(Continued from Page 1.)

core and men, were bruised by contact with the machinery and were almost overcome by their exertions. Chief Engineer Sterling had the assistance during his fight with his waters of Chief John H. Webb, Chief Warrant Machinist W. J. Clancy, Warrant Machinist H. A. Lowell, and several chief machinists of the engineering department.

Meanwhile Captain Potts had been making certain that the lives of his officers were protected. He ordered wireless messages sent to Rear Admiral Charles J. Badger, then aboard his flagship Wyoming, a mile and a half away and sent messages also to the naval tugs Sonoma and Ontario to come alongside.

When the accident occurred the battleship was without steam, only one boiler being in use for minor purposes while the engines were being overhauled. As a result the tugs had to be called upon to tow the battleship. They converged under Captain Potts' direction to a point a mile away well ashore, just off Taylor's Point in Jamestown. So close was the battleship to the beach that it was reported on shore that she had actually run upon the sand. As a matter of fact she had at least sixteen feet of water under her at all times.

As soon as Captain Potts was notified of the accident he also hastened to the engine room. He found officers and men stripped to their waists fighting to master the invading waters. Chief Sterling expressed some fears to the chances of gaining early control, and Captain Potts rushed to the bridge and sounded the call for collision drill, bringing every man to quarters and automatically closing the bulkhead doors.

The collision mat was put overboard without stopping the waters. Mattresses were bailed from bunks, blankets from hammocks and waste in large quantities was jammed into the hold, but all to no avail. The sea forced itself through after each attempt, often knocking down the men in the flooded engine room.

The pumps had succeeded by this time in ridding the room of some of the water and swimming was no longer necessary. Soon the pumps were disposing of more water than was entering, and then the battling engine room force was able to drain into the whole a waste can, heavily packed. This was jacked securely and the threatening water was stopped.

Anchored safely, with a broad glistening beach to run on to if necessary, measures were taken permanently to repair the damage. A diver was sent overboard and placed a new bonnet on the auxiliary overhead discharge valve, through which the water had rushed, the engines were started and the battleship steamed back to her station without help.

"There was no confusion of any kind," Captain Potts said tonight. "The engineer's department did its work manfully. I am sorry that it should have happened today, but it demonstrated again the fine value of the men under me. Believe me, I am sorry to go."

There were tears in the eyes of the man who tomorrow will leave his vessel as a result of the plucking board's report.

Officers and men express much sorrow over the departure of their commander. Captain Potts passed the examinations for the grade of Rear Admiral several months ago but did not succeed to that rank because in the opinion of Secretary Daniels he had not had sufficient duty at sea.

HAD LONG BEEN ILL

Death of Mrs. Marianna J. Hoyt at Exeter, N. H., Hospital

Exeter, N. H., July 2.—Mrs. Marianna J. Hoyt aged 76 years, widow of William B. Hoyt, former postmaster, and register of deeds died this morning after a long illness of Bright's disease.

Mrs. Hoyt was born in Exeter and had always lived here except during the Civil War period, when she lived in Portsmouth. She leaves one son, Louis G. Hoyt of Kingston, Judge of probate; a sister, Mrs. Marshall S. Snow of St. Louis, and three brothers, Dr. A. B. Jewell of Newton, Mass., Frank O. and Oscar F. Jewell of New Haven, Conn.

The funeral will be from the Universalist church at Kingston, Friday at 2:30 p. m.

THE FAMILY DISCUSSED

Portland, July 3.—"The Family Marriage and Divorce," was the big topic under discussion today at the fifth day's session of the Second World's Christian Citizenship Conference which will continue through July 6. This afternoon the delegates turned their attention to matters of prison reform, social purity, intemperance, and capital and its relation to labor. The meetings were held in the huge open air amphitheatre of the Mall.

Dyspepsia is America's curse. To restore digestion, normal weight, good health and purify the blood, use Burdock Blood Bitters. Sold at all drug stores. Price \$1.00.

mah Athletic Club. Delegates numbering approximately 20,000 are in attendance from all parts of the United States and from several European countries.

WRENN SENTENCED TO LIFE IMPRISONMENT

Keene, July 2.—John H. Wrenn, who last night was found guilty of murdering J. Stewart Hamilton of Rochester, N. Y., was sentenced to life imprisonment by Judge Robert G. Pike today. A stay of execution for ten days was granted by the court to permit the filing of a motion for a new trial for Wrenn. Under the law no other sentence was permissible, it being necessary for the jury to specify if capital punishment is favored in first degree cases.

Hamilton was a railroad construction foreman in charge of work at Hinsdale and Wrenn was one of the workmen in his employ. The murder took place at Hinsdale February 1 last and Wrenn was later arrested in Halifax, N. S., and brought back for trial.

KING VICTOR EMANUEL WILL VISIT

Rome July 3.—Official announcement was today made from the Quirinal that King Victor Emanuel will do a little royal visiting this summer. Accompanied by his Queen the first call will be made on the King and Queen of Sweden who visited Italy some time ago. The Italian monarchs will then drop in on the Kaiser and his wife at Kiel.

QUESTION CLEARED UP

Readers Can No Longer Doubt the Evidence

Again, and again we have read of strangers in distant towns who have been cured by this or that medicine. But Portsmouth's pertinent question has always been "Has anyone here in Portsmouth been cured?" The word of a stranger living a hundred miles away may be true; but it cannot have the same weight with us as the word of our own citizens, whom we know and respect, and whose evidence we can so easily prove.

James W. McMillan, grocer, 68 Denholt street, Portsmouth, N. H., says: "I know that Doan's Kidney Pills are an excellent remedy as they have been used in my family for pain and lameness across the loins, and difficulty with kidney secretions and they have always lived up to representations. I have no hesitation in giving Doan's Kidney Pills my endorsement."

For sale by all dealers. Price 50cts. York, sole agents for the United States.

Remember the name—Doan's—and take no other.

CEMETERY LOTS

CARED FOR and TURFING DONE

With increased facilities the subscribers again are prepared to take charge of and keep in order such lots in any of the cemeteries of the city as may be entrusted to their care. They will also give careful attention to the turfing and grading of them, also to the cleaning of monuments and head stones, and the removal of bodies. In addition to work at the cemeteries they will do turfing and grading in the city on short notice.

Cemetery lots for sale; also Loan and Turf.

Orders left at residence, corner of Richards avenue and South street, or by mail with Oliver W. Ham, 64 Market street, will be given prompt attention.

FRUITS A GROWING FACTOR IN FOREIGN TRADE

Washington, D. C., July 3, 1913.—Fruits are a rapidly growing factor in the foreign trade of the United States. The value of fruits and nuts passing through the custom houses of the United States in the fiscal year, just ended approximates 90 million dollars, and is twice as great as that of a decade ago. The exports of the fiscal year 1913 amount to 37 million dollars, speaking in round terms, against 18 million in 1903, a decade earlier; and the imports approximate 42 million dollars against 31 million in 1903. These figures do not include the trade with Hawaii and Porto Rico, which sent to continental United States over 6 1/2 million dollars' worth of fruits and nuts during the last fiscal year.

Fruits exported are chiefly apples, pears, apricots, raisins, and oranges, and go largely to Europe and North America, while those imported are chiefly bananas, lemons, olives, currants, and grapes. The imports of nuts, almonds, walnuts, coconuts, and coconut meat, are drawn principally from the Tropics.

Of the 37 million dollars' worth of fruits exported during the year apples alone amounted to about 11 million dollars in value, of which about 8 million were in their natural state and about 3 million dried. Europe takes the bulk of apples, both green and dried, having taken in 1912, for which period complete figures are at hand, over four-fifths of the total. England is by far the largest purchaser of the fruit in the natural state, having taken, in 1912, 29 million dollars' worth of green apples, against three-fourths of a million dollars' worth by Scotland, three-fourths of a million by Canada, and one-half a million by Germany. Of the dried apples exported, Germany is by far the largest purchaser, having taken, in 1912, 2 1/3 million dollars' worth, against 1 1/4 million dollars' worth by the Netherlands and a quarter of a million dollars' worth by Belgium. Pears are the next largest item in the exports of domestic fruits, amounting to over 6 million dollars in value in 1913, and of these Germany is the largest purchaser, having taken about 2 million dollars' worth in 1912, against three-fourths of a million dollars' worth by Canada, a half million dollars' worth by France, a half million dollars' worth by Belgium, and a half million dollars' worth by England. The growth in exports of pears has been very rapid, the quantity exported in the current year amounting to 110 million pounds against 66 million in 1903, a decade earlier. Raisins show a still larger growth in exports, the quantity exported in 1913 being about 28 million

The Appledore

ISLES OF SHOALS

Off Portsmouth, N. H.

No noise, no dust, only the sound of the sea on every side, in the sublime charm of which the stress and strife of life on the mainland are forgotten as the life of the mainland are left behind.

In all respects better than an ocean voyage.

Plan to pass at least some part of your summer's rest at the famous Appledore House, and enjoy the beauties of this delightful island group.

pounds against 4 1/4 million in 1903. Canada takes more than one-half of the total exports. Canned fruits exported amount to about 6 million dollars' worth in 1913, and these go chiefly to Europe.

Fruit imports, as already indicated, are chiefly bananas, lemons, olives, currants and grapes; the banana imports for the fiscal year just closed amounting to about 14 million dollars and coming principally from Central America and the West Indies. Figures for 1912, which do not differ materially from those of 1913, show from Jamaica 4 million dollars' worth, Costa Rica 2 3/4 million, Honduras a little over 2 million, Cuba a little less than a half million dollars' worth. The value of bananas imported was, in 1909, 4 1/2 million dollars; in 1909, a little less than 6 million, and in 1913, as above indicated, approximately 13 million. The lemon imports, which amount to between 3 and 4 million dollars annually, come almost exclusively from Italy; while nearly three-fourths of the 2 million dollars' worth of olives imported come from Spain. The million and a half dollars' worth of currants imported come principally from Greece, the 1 1/2 million dollars' worth of grapes chiefly from Spain, the nearly a million dollars' worth of figs, and the half million dollars' worth of dates chiefly from Turkey in Asia. Of the approximately 14 million dollars' worth of nuts imported, almonds are the largest single item, amounting to over 3 million dollars in value, and these come chiefly from Spain. The approximately 2 million dollars' worth of coconuts in the shell come chiefly from the West Indies and Central America, Jamaica and Trinidad supplying nearly one million dollars' worth, Honduras a quarter of a million dollars' worth, and Cuba a quarter of a million dollars' worth. Of the 2 million dollars' worth of coconut meat, broken (or "copra") imported, about one-half came from the Philippine Islands and approximately a half million dollars' worth from French Oceania.

The fruits and nuts received in continental United States from its non-contiguous territories—Porto Rico, Hawaii, and the Philippine Islands—amount in value to over 8 million dollars a year, of which approximately 4 million come from Hawaii (chiefly canned pineapples), over 3 million dollars' worth from Porto Rico (chiefly oranges and pineapples), and approximately a million dollars' worth from the Philippine Islands (chiefly coconut meat, broken, commercially known as "copra").

The course of study in the Akkama normal schools is to be radically changed to include such subjects as: Rural sociology, biology, domestic science, domestic art, library methods, school gardening, and agriculture through club work.

Some of the rural schools in the state of Washington have college graduates as teachers. In that state they pay good salaries to country teachers because they believe that the country school should be as well taught as the city school.

Kentucky is having a real educational awakening, so real that people are not afraid to pay what it costs to create and maintain an efficient system of schools. One tax collector reports that citizens who have been in the habit of complaining because of higher taxes said it was "all right" when informed that the increased rate was in order to give more money to the public schools.

Consolidation of schools is going on to such an extent in the United States that, even with a building boom in progress, many localities report fewer schools each year. Tennessee offers some notable examples. Knox County has erected 14 new buildings during the year, yet the total number of schoolhouses in use has been reduced from 154 to 135. Now consolidation helps attendance is shown by another Tennessee county (Lauderdale), where a new consolidated school had twice the enrollment of the combined three schools which it replaced. The better consolidated school attracts better attendance, despite the fact that it is less easy to reach.

EDUCATIONAL NOTES

Denver has 10 public playgrounds, with a teaching corps of 19 men and women.

Women teach practical agriculture in the elementary schools of Tippecanoe County, Indiana.

Swimming lessons, sex hygiene instruction, aviation, and wireless telegraphy are some of the new subjects in city public schools as reported to the United States Bureau of Education.

"The best thing in my section this year was the introducing of industrial education for the negroes by means of a negro supervisor," writes a division superintendent of schools in Virginia.

It costs 25 typical American cities an average of less than a dollar a year per pupil to provide free text books, according to W. S. Deffenbaugh, of the United States Bureau of Education.

The course of study in the Akkama normal schools is to be radically changed to include such subjects as: Rural sociology, biology, domestic science, domestic art, library methods, school gardening, and agriculture through club work.

BACK FROM GETTYSBURG

Major David Urich who accompanied the local veterans to the great reunion at Gettysburg, returned home on Wednesday evening. He reports all of the Portsmouth delegation in excellent health and having a fine time. The weather is decidedly hot and many have been affected.

A QUARTER OF A MILLION FOR HEART BALM

London, July 2.—Two hundred and fifty thousand dollars and all the costs of the suit in the price the Marquis of Northampton has agreed to pay to settle the suit for breach of promise brought against him by Miss Daisy Markham, the actress. The costs will amount to a considerable sum on account of the number of distinguished counsel engaged to plead for the opposing parties.

The Marquis, better known as Earl Compton, only recently succeeded to the title, at the age of 27. The plaintiff is well known both in America and the British Isles under her stage name.

The settlement was announced when the case was called in the High Court of Justice this morning. In a courtroom crowded with fashionable women and actresses, who had come in anticipation of listening to some interesting evidence.

Sir Edward Carson, formerly Solicitor General, Edward G. Hemmerde, Recorder of Liverpool and Member of Parliament, and two junior barristers appeared on behalf of Miss Markham who sued in her real name of Miss Violet Moss. On the other side, for the Marquis, was Henry E. Duke, a Liberal Member of Parliament, Fredrick J. Smith, one of the Unionist leaders, and Raymond Aquilith, a son of the Premier.

The engagement of all this legal talent makes the costs of the suit amount into tens of thousands of dollars.

The young Marquis has previously offered \$50,000 to settle the case and many people had thought Miss Markham would not accept the offer.

When Miss Markham insisted on proceeding with the suit, London gossip anticipated that she had a sensational story to tell and interest in the suit rose accordingly. The damages paid today are the heaviest recovered for many years in a breach of promise suit.

Sir Edward Carson, as soon as the preliminaries had been completed, informed the court that a settlement had been reached after a consultation between counsel on both sides. He explained that Miss Markham had met the Marquis last year.

He made a promise of marriage to her which was not denied. Subsequently at the desire of his father, the Earl broke off the engagement. In doing so he wrote to Miss Markham that he wanted her to believe his action had been taken from a sense of duty, gradually believing it best for both parties. When his father talked to him, the young Earl wrote, "he faced me with the same thoughts I told you of when I first loved you, which I have ever since been trying to suppress."

Continuing, the Earl wrote, "You do not know how these so-called ladies will treat you and I really could not bear to see you suffering it. O, if I could but escape from my position. You will always be my ideal, my beautiful dream."

The letter concluded, "Your heart-broken friend." This was the Earl's nickname.

Sir Edward Carson said the present Marquis of Northampton had made provision for the lady such as she would have been entitled to had he made her a marchioness. He then announced the settlement for the sum of \$250,000.

Henry E. Duke, the counsel for the defendant, in continuing the settlement said that when the then Earl Compton asked his father's consent to his marriage, with Miss Markham, the father told upon the son an absolute prohibition and enacted a solemn engagement that he would not pursue his desire to marry the plaintiff.

Miss Margaret Pearson

The Wine of Madness—Lubin

Love's Old Sweet Song—Edison

The Gold Brick—Sole

A Pullman Nightmare—Thantouner

SONG—At the Yiddish Ball

Miss Margaret Pearson

Program for the Fourth of July

The Counterfeiter—Ray-Hee

A remarkable drama of the west in two reels. In a series of thrilling scenes the counterfeiter escapes to the west. The government detective trails him, and on the eve of his daughter's wedding arrests him.

Barney Oldfield's Race for a Life—Keystone

A unique picture, a combination of sensational, thrilling, and humorous melodrama.

SONG—My Parcel Post Man

Miss Margaret Pearson

On the Border—American

A dramatic western story of a Spanish dancer, a chafarinas waiter, and a poison plot that failed.

A Victim of Circumstances

An artistic comedy by the Thantouner company.

SONG—At the Yiddish Ball

Miss Margaret Pearson

Playing With Fire—Lubin

An intensely interesting subject, gripping in every detail.

REMEMBER!

THE COOLEST PLACE IN TOWN

REMEMBER!

port, Mass.; New Jersey for Salem, Mass.; and Kansas for Bar Harbor. The torpedo boat destroyers Walke, and Perkins left for Castine, Me., and the Warrington and Dixie have arrived at Newport.

Finished the Work

The crew from the general store who have been assisting in the moving of the purchasing pay office in this city completed their labors today.

Examine Them On July 14

The board selected to examine the candidates for the position of master mechanic in the machinery division have set July 14 as the date for the same.

Sails On Monday

The U. S. S. Des Moines will sail at 9 o'clock on Monday forenoon for New York.

Money for the Fourth

The crews of all the ships at the yard will be paid today which means quite a distribution of Uncle Sam's coin to the jockies.

The Herald Hears

That the wet goods shipments to Maine by the express companies is very heavy.

That it may be a dry state but for people there don't intend to go dry.

That the Eagle screams tonight.

That the weather man is doing his best.

That the vestibule door at the post-office has at last been stored.

That another summer home built by Ralph Flynn is going up on Badger's Island.

That the Ladder 1 of the fire department will be seen at the next alarm in its new dress of red.

That the Franklin school bell will likely be heard tonight as usual.

That the parcel post stamps will soon be a good souvenir.

That it may be a sunny Fourth, but what about the "Night Before?"

That the Kittery fire department will do the St. Louis dip tonight.

That the crew of the U. S. S. Washington are not stuck on being confined to the harbor on a holiday.

That forest fires in York and Elliot are causing much alarm.

That the people there say that rain will be the only relief.

That there will be some patriotism displayed at the flag raising on Badger's Island tomorrow.

That the camp will be officially named when Old Glory goes to the breeze.

That several of the clubs will keep open house tonight.

That the men heard praying loud in public often needs the most of it himself.

That the breweries are working overtime.

That the section crew of the Portsmouth Electric Railway should take a look at the dirt on the company's trucks on Deer street.

That this street should be as clean as any in the city.

That nobody ever gives the groom a gaze at a wedding, but if he should happen not to show up then he certainly gets in the line of sight.

That a Philadelphia woman was choked to death by her own tongue. Perhaps she was trying to swallow her words.

That the professor's friends say he looks fine in his silk hat.

That the lid is all right but it came from a runaway mole.

That it will be used July 4 as a target instead of the old fashioned bullet-eye.

PERSONALS

Fred L. Shaw of North Hampton was a visitor here today.

F. E. Whodgett of Suncook, passed Wednesday night in this city.

TILTON DRUG CO.

BEACH LOTS FOR SALE

—AT—

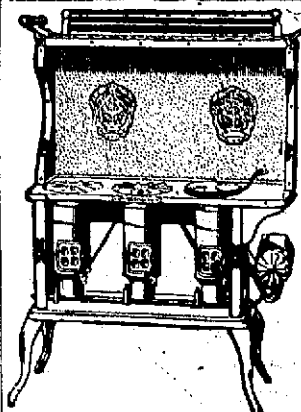

Wallis Sands, Rye, N. H.

This beach, the finest on the New Hampshire coast, is especially desirable for the children, and is known everywhere as the children's beach. It is a clean, fine, sandy beach, free from rocks, is one mile long, crescent in shape, and wide and flat, with perfectly safe bathing at all times of tide. There is good fishing from the rocks at the extreme ends of the beach, and a most excellent hotel, under able management. Telephones and electric lights can be had in all the cottages. All supplies are brought to the door, and it is within easy communication with Portsmouth, N. H. The lots have a frontage on the beach and ocean, are high and slightly, and extend back to the boulevard. Excellent water is found on every lot by simply driving a well some fifteen feet. The water is pure and ice cold, and has the taste and appearance of spring water. A plan of the lots, and full information can be had by applying to

FRANK D. BUTLER,

3 Market St., Portsmouth, N. H., or at His Cottage at Wallis Sands.

N. B.—Only Nine Lots Unsold.

OIL STOVE THE BLUE FLAME

It gives a hot flame at once.

The usual summer stock of Refrigerators, Bureaus, Screen Doors, Etc.

W. E. PAUL, Agt.

Tel. 300W. 57 Market Street

Get your hot weather suit today and enjoy the "Glorious Fourth" which bids fair to be "a hot one" in a cool, comfortable suit of—say blue serge, gray tweed or homespun.

If it is a "Stein-Bloch" suit you can feel doubly proud and patriotic as you'll have a suit made by the best tailoring concern in the best country on earth.
